

DRISHTI-NE Hackathon

Round 2: Final Prototype Submission Guidelines

1. Purpose of Round 2

Round 2 of the **DRISHTI-NE Hackathon** is the **Final Prototype Submission Round**, where shortlisted teams are required to demonstrate **execution readiness, technical depth, and real-world applicability** of their AI-based solution.

This round moves beyond ideation and focuses on **functional implementation, responsible AI practices, and clear regional relevance to the North Eastern Region (NER)**.

Only submissions that **fully comply** with the instructions below will be considered for evaluation.

2. Submission Window

- **Round 2 Submission Opens:** 10 January 2026, 12:00 AM IST
- **Round 2 Submission Closes:** 30 January 2026, 11:59 PM IST
- **Submission Mode:** Upload on Unstop (single ZIP file only)

Late submissions will **not** be accepted.

3. Submission Format (Mandatory)

Each team must upload **one ZIP file (maximum size: 50 MB)** containing **all required documents and links** listed below.

Submissions that are:

- Incomplete
- Exceed the file size limit
- Missing eligibility documents
- Missing a functional prototype

will not be evaluated.

Naming Convention for ZIP file: **TeamName.zip**

4. Mandatory Deliverables (Required for Evaluation)

A. Functional Prototype / MVP

The submission **must include a working prototype** that demonstrates the **core AI functionality**.

Accepted formats:

- Web application
- Mobile application
- Command-line interface (CLI) tool

Not accepted:

- Figma-only designs
- Concept videos without a working model
- Slides without executable logic

The AI component must be **central to the solution**, not cosmetic.

B. Demonstration Video (Maximum 3 minutes)

A short demo video showing the solution in action.

Required structure:

1. Problem statement (NER-specific context)
2. Live demonstration of the prototype
3. Expected social / governance / economic impact

Format:

- MP4 upload **or** unlisted YouTube link
- Voiceover is mandatory

C. Project Code Repository

Provide a **GitHub or GitLab repository link**.

The repository must include:

- README.md with clear setup and run instructions
- requirements.txt or equivalent dependency file

- Clean, readable, and commented code

Judges should be able to understand the system without external explanations.

D. Technical Architecture Document

A concise document explaining the system architecture.

Must include:

- High-level workflow diagram
(*User → Frontend → API → AI Model → Database*)
- Explanation of AI/ML models used
- Data flow and processing logic

Format: PDF

5. Eligibility Verification Document (Mandatory)

This is compulsory for all teams

Each team must submit a **Participant Eligibility & Verification Document** as part of the ZIP file.

A. What this document must contain

For **each team member**, include:

1. Full Name
2. Role in the team
3. Category (Student / Professional / Startup)
4. North East linkage (one of the following):
 - Institution currently located in NER
 - OR domicile/residency from NER
 - OR professional/startup currently based in NER
5. Proof document (any ONE):
 - College/Institute ID (NER-based)
 - Domicile certificate
 - Valid address proof

- Startup registration address (if applicable)

6. Declaration statement signed by all members:

“We hereby declare that the above information is true and accurate. We understand that any false declaration may result in disqualification.”

B. Format

- Single PDF titled: **TeamName_Eligibility_Verification.pdf**

C. Important Note

Submissions without a complete Eligibility Verification Document will be automatically disqualified and will not be evaluated.

6. Optional Value-Add Deliverables (Score Boosters)

These are not mandatory but will significantly strengthen your evaluation.

- Responsible AI audit (bias, privacy, DPDP Act compliance)
- Dockerfile / containerized deployment
- UX journey map or screenshots
- Business or sustainability model outline
- Government pilot readiness note

7. Submission Checklist (Before Upload)

Ensure your ZIP file contains:

- Functional prototype
- Demo video or link
- Code repository link
- Technical architecture document
- Eligibility verification document
- Optional value-add materials

Naming Convention for ZIP file: TeamName.zip

Maximum ZIP size: 50 MB

8. Evaluation Criteria (Round 2)

Submissions will be evaluated on:

- Technical robustness and AI implementation
- Impact relevance to North East challenges
- Feasibility and scalability
- Responsible AI practices
- Clarity of execution and documentation

For Queries

Please use the **Unstop Discussion Forum** for official clarifications.

All updates will be communicated only through the platform.
